DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 16-34 are rejected under 35 U.S.C. 102(b) as being anticipated by Robinson et al. (SAE Technical Paper), which shows all of the claimed limitations. Robinson shows a liquid catalyst delivery system (Appendix A) including a receptacle (container) with air inlet (intake port), and a catalyst transport including a high rpm transport path and a low rpm transport path (first and second rate, respectively). Robinson further shows a variable pump (vacuum pump), and a check valve.
